PART III: APPLICATION

3. Pursuant to the Program, an Owner of Eligible Property may apply to the Program Administrator to finance an Eligible Clean Energy Improvement. The Program Administrator may charge a fee in relation to any such application, pursuant to the Regulation.
4. An Owner may submit one (1) Program application per year. A property's tax-exempt status shall have no effect on eligibility to participate in the Program or any obligation under an Agreement to make required principal and interest payments through tax recovery or otherwise.
5. The City may enter into an Agreement with an Owner on a discretionary basis but subject at all times to the requirements, conditions and limitations set out in sections 10(1) of the Regulation including, but not limited to, the Program Administrator's approval of the application referenced in Section 3.
6. Where the City has entered into an Agreement with an Owner, and at any time following the signing of that Agreement, a Clean Energy Improvement Tax will be imposed on the applicable property pursuant to that Agreement.
7. For the purposes of imposing a Clean Energy Improvement Tax, the period over which the cost of each Eligible Clean Energy Improvement will be spread may vary, but in no case will such period exceed the probable lifetime of the applicable improvement. In the case of multiple upgrades to a single Eligible Property, financing terms will be calculated for each upgrade separately and will be added to the property tax bill as a single line item.
8. Over the course of up to a four (4) year period, and in the form of a line of credit or other loan instrument, the City will borrow funds totaling up to four million dollars (\$4,000,000) from a financial institution and/or the Green Municipal Fund, a program delivered by the Federation of Canadian Municipalities and funded by the Government of Canada, in order to finance approved Eligible Clean Energy Improvements.
9. The annual borrowed amount will have a maximum rate of interest of five percent (5%), a maximum term of twenty-five (25) years, and repayment terms including principal and interest, plus other fees or charges applicable to the borrowing.
10. The principal and interest owing under the borrowing will be paid using the proceeds from the Clean Energy Improvement Tax and other payments

that may be made by the Owners with respect to the applicable Eligible Clean Energy Improvements.

11. The annual maximum financing amounts to be allocated to the Program, in the City Manager's sole discretion, are as follows:
 - \$1,000,000 in the first year of the Program;
 - \$1,000,000 in the second year, plus unallocated amounts from the first year of the Program;
 - \$1,000,000 in the third year, plus cumulative unallocated amounts from the first and second years of the Program; and
 - \$1,000,000 in the fourth year, plus cumulative unallocated amounts from the first, second and third years of the Program;
12. If an Owner wishes to make early, full repayment of an amount financed by a Clean Energy Improvement Tax, the amount owing will be calculated at the time of the request, based on the principal and interest remaining and the terms of the financing.
13. Any project(s) that has been approved under the Program must be completed within the time limit as set out under the Agreement.
14. If any clause in this bylaw is found to be invalid, it shall be deemed severed from the remainder of this Bylaw and shall not invalidate the remainder.
