

PUBLIC HEARING

Proposed land uses: 65th Avenue Area Structure Plan Bylaw No. 1073-2020

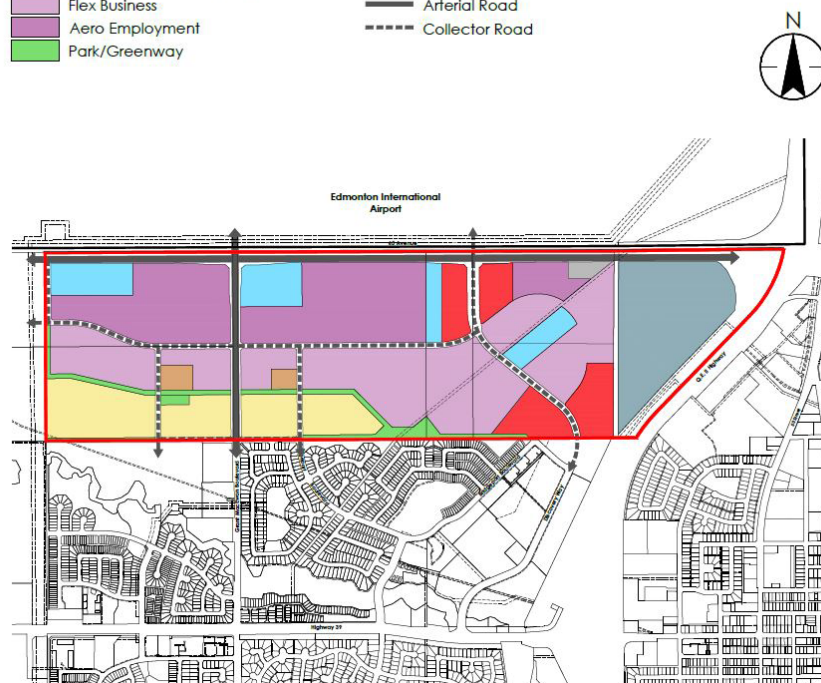

The city will host a public hearing regarding the proposed 65th Avenue Area Structure Plan (ASP) (Bylaw No. 1073-2020). An area structure plan (ASP) provides the framework for subsequent subdivision and development of an area of land within a municipality. The 65th Avenue ASP describes the sequence of development anticipated for the land south of the airport, west of Highway 2, and north of Leduc Common, Bridgeport, and Deer Valley/Creekside neighbourhoods. It also outlines the land uses proposed for the area, and the general locations of major transportation routes and public utilities. The legal descriptions of these lands are NW ¼ 35-49-25-4; Lots 1, 2, 3 Plan 922 3395; NW ¼ 34-49-25-4; and NE ¼ 33-49-25-4.

The 65th Avenue ASP encompasses approximately 227 hectares (561 acres) of undeveloped land and includes the following:

- Office, business, and employment uses which leverage proximity to the EIA and provide opportunities for airport-connected development;
- Commercial uses which serve the needs of residents and employees in the plan area, the local community, and the local region;
- A greenway buffer between residential and non-residential uses, providing separation space, a multiway path, and wildlife corridor;
- Low and medium density residential with a diversity of housing types with connections to adjacent residential neighbourhoods; and
