

Hen Enclosure Dimensions and Areas	Minimum Coop Size (m)*		Minimum Coop area (m)*	Minimum Run Size (m)*		Minimum Run area (m)*	Minimum Hen Enclosure Size (m)*		Minimum Enclosure Area Metric (m ²)**	Minimum Enclosure Area Imperial (ft ²)
	Length	Width		Length	Width		Length	Width		
Three Hens	1.05	1.05	1.11	1.66	1.66	2.76	2.71	2.71	3.87	41.66
Four Hens	1.22	1.22	1.48	1.92	1.92	3.68	3.13	3.13	5.16	55.54
Five Hens	1.36	1.36	1.85	2.14	2.14	4.60	3.50	3.50	6.45	69.43
Six Hens	1.49	1.49	2.22	2.35	2.35	5.52	3.84	3.84	7.74	83.31

Minimum Backyard Area Requirements with Setbacks	Minimum Yard Length (m) <i>(assuming 1.2m from fence setback and 3m from windows and doors of residence building)</i>	Minimum Yard Width (m) <i>(assuming 1.2m from property line on both sides of the rear yard)</i>	Minimum Yard Size (m ²)*	Minimum Yard Size (ft ²)
Three Hens	6.91	5.11	35.37	380.71
Four Hens	7.33	5.53	40.60	436.99
Five Hens	7.70	5.90	45.50	489.72
Six Hens	8.04	6.24	50.16	539.93

*Measurements provided assume that the built structures will be square in shape and are calculated based on the areas requirements per hen provided in the Guidelines. The applicant/licence holder must ultimately build the hen enclosure to fit their own yards and remain in compliance with the Guidelines.

**Enclosure area provided assumes that the coop is not elevated. If an elevated coop is proposed by the applicant, the overall enclosure area may be smaller.
