

Transportation Master Plan Update

We're updating the plan that guides our transportation network.
Whether you drive, take transit, walk or cycle, your thoughts matter.

The City of Leduc is inviting residents, businesses and all stakeholders to share their thoughts and insights on how we can continue to plan and build a transportation network that will serve a safe, healthy community and robust economy.

The Transportation Master Plan (TMP) will guide the City in making decisions and setting directions for our entire transportation system for the next 25 years. It is crucial to make wise investment choices in our transportation infrastructure, including roads, sidewalks, trails, transit and goods movement, as these decisions will shape the future mobility of our city.

Have your voice heard!

Visit our interactive online map to share your thoughts, ideas and potential concerns.

Interactive Online Map

**The interactive online map is
open to June 30th, 2023**

Share your thoughts on the City's current transportation network:

- What is working and what do you like about the current system?
- What would you like to improve?
- What concerns do you have?
