Aaron is an individual who works with great diligence and commitment.

GERALD UNGER:

Gerald Unger joined the City of Leduc as the information Technology Manager on February 4, 2004, and in the Fall of 2004 Gerald began working with the Emergency Management Team in the role of Assistant Deputy Director of Emergency. As a member of the Emergency Management Team, Gerald has worked on and delivered Emergency Management presentations to other Municipalities and at Conferences. Gerald is also a member of the Alberta Emergency Alert program run by the Alberta Emergency Management Agency. Gerald was instrumental in the getting the City's Staff notification system operational. Gerald continues to be an important member of the City of Leduc's Emergency Preparedness Program sharing his expertise and skill with allied agencies and partners. His hard work and dedication has not gone unnoticed.

CHRISTA STEELE:

The City of Leduc Fire Services welcomed Christa on June 17, 2002 as a part-time Emergency Medical Dispatcher in the Emergency Communications Centre. During Christa's time in the ECC, she joined the ranks of the Paid-On-Call Firefighters with the City of Leduc Fire Services on August 31, 2005. Christa continued with the City of Leduc Fire Services as a PoC and part time ECC operator until her full time hire on March 12, 2006 with the City of Leduc Fire Services. Christa has been a charismatic, diligent, and focused member of our team who works with determination and passion in her career as a Firefighter and an EMT-A in the integrated service of the City of Leduc Fire Services.

MICHAEL LABUTES:

In 2003 Michael graduated from NAIT with honors, and received his EMT-P certification. Michael was also the recipient of the Jim Olson Memorial award for achieving the highest overall score on the EMT-P registration exam in 2003. On December 29, 2003 Michael began his full-time career with the City of Leduc Fire Services, and was promoted to the rank of Lieutenant on August 31, 2015. Michael is a dependable and reliable Lieutenant; he is always willing to go the extra mile to see that things get done in a safe and timely manner. His outstanding work ethic for City of Leduc Fire Services is second to none.

ALEC DREICHEL:

Alec joined the City of Leduc Fire Services in 2017 as an Advanced Care Paramedic (ACP) where he has become a great asset to our team, and has positively impacted our operations and personnel with his 12 years of experience. He is a phenomenal ACP, who leads by example, and is always willing to go the extra mile to assist with any situation without having to be asked. His proficiency and conduct in Emergency Services has been noteworthy.

ANGELA SZEPONSKI:

In November of 2015 Angela Szeponski became a part of our Fire Services team as a Paid-On-Call Paramedic. Angela has an extensive amount of schooling, which has enhanced her expertise in the medical field which has made her an irreplaceable addition to our City of Leduc Fire Services Team. She was also nominated for the Alberta YMCA Women of Distinction Award in 2015 - Trailblazer Category for promoting and mentoring Alberta women to answer their call to join Alberta's Fire Services and EMS. Angela has been a reliable and dependable individual who has positively impacted our operations and her peers. Her wealth of knowledge and experience makes her valued to our team.

SCOTT WIERENGA:

Scott was hired by the City of Leduc Fire Services in 2015 and is currently a full-time Firefighter and Advance Care Paramedic in our integrated service. Scott is a well-respected individual whom his peers can look to for assistance at any time. Scott takes the time to listen to his peers and always knows how to lighten the mood in any room. He consistently leads by example and takes on any task that he is given head on. Scott has been an exceptional addition to our department and team.

DANIEL SUNDAHL:

On December 29, 2003 Daniel was hired on full-time with the City of Leduc Fire Services. Since joining the City of Leduc Fire Services, Daniel has continued to expand his knowledge and expertise in both Firefighting and EMS Daniel is a very modest and unassuming individual, who takes great pride in his job, and makes it a priority to deliver a high standard of service in every application of his station. Daniel has been a prominent member of our Fire Services team. He has been a positive and reliable impact to our service, his peers, and the community. Daniel is a diligent, and conscientious member of our team who is always there whenever the need arises.

Chad has greatly impacted our operations and personnel with his 16 years of experience and knowledge. He is a conscientious acting officer, who takes the time to mentor others by leading by example. Chad is very mindful of the needs of others and is always there to lend a hand.

BRANDON NOVAK:

Brandon became a part of our City of Leduc Fire Services team as a Firefighter/ ACP on July 14, 2008. Brandon has continued to further his education and training. He has successfully obtained multiple certificates that have strengthened his expertise in both EMS and Firefighting fields. With Brandon's vast experience he has become a reliable and essential addition to our team. Brandon can always be counted on by his peers, he is an exceptional role model who leads by example. His patience and persistence have made him an exceptional firefighter and Paramedic.

MINDY SMITH:

In September of 2013 Mindy joined the City of Leduc Fire Services as a Full-Time Firefighter/ Paramedic with the City of Leduc Fire services. On June 13, 2018 Mindy successfully completed the Officer Development Program, and is currently an acting officer in Fire Services. This milestone made Mindy our first female Fire Officer to serve our service and community. Mindy has been a commendable addition to the City of Leduc Fire Services. Her value as a clinical educator is unparalleled; she not only maintains her own certifications and skills, but also ensures her peers are maintaining their skills so they can continue to deliver our high standard of quality service.

EXERCISE IRON HORSE

PRESENTERS:

GEORGE CLANCY, DIRECTOR OF EMERGENCY MANAGEMENT
GERRY KELLY, DEPUTY DIRECTOR OF EMERGENCY MANAGEMENT
GERALD UNGER, ASST., DEPUTY DIRECTOR OF EMERGENCY MANAGEMENT

EXERCISE IRON HORSE

- Train derailment at Black Gold Drive and 47th St.
- 2 locomotives and 110 rail cars collide with semi-tractor trailer. Rail cars carrying crude oil; semi-tractor carrying anhydrous ammonia
- Incident debris stretching from 42nd Ave to 51st Ave and closing rail crossings at Rollyview Road, Black gold Drive, and 50th Ave.
- Toxic plumes, several rail cars burning, and anhydrous ammonia leaking from semi-tractor causing a major evacuation of a vast vulnerable population

EXERCISE IRON HORSE

Exercise Objectives

- Test the City of Leduc Municipal Emergency Plan and the City of Leduc Evacuation Plan
- Identify ways to cross pollinate emergency plans
- Familiarization of capacity requirements relative to each individual agency
- Identify gaps and opportunities in agency processes
- Understand how technology and information sharing can assist in the response and recovery
- Participants have an enhanced understanding of the ICS methodology
- Have better knowledge of their own capabilities and skills relative to emergency management
- To foster a common language between multiple agencies during an incident

EXERCISE IRON HORSE

Participants

- Multiple external agencies involved including AHS, CP Rail, Black Gold School Division, Leduc Extendicare, Salem Manor
- Observers:
 - Alberta Emergency Management Agency, (ECC)
 - Strathcona County Emergency Management Coordinator (ECC)
 - St. Albert Emergency Management Coordinator (FCSS)
 - Alberta Solicitor General's Office
 - NAIT Emergency Management and Preparedness Program Students

EXERCISE IRON HORSE

Primary Focus of the Exercise

- Test the City of Leduc Evacuation Plan
- Test an evacuation of the hospital
- Test an evacuation of Leduc Extendicare and Salem Manor Nursing Homes

EXERCISE IRON HORSE

Recommendation Highlights

- Facilitate a consult with AHS Continuing Care to establish protocols pertaining to supporting Long Term Care Facilities during major emergencies.
- AHS should be the centre point to coordinate the facilities affected, but each facility should be responsible for their own evacuation plans. AHS will step in only when the Facilities cannot make their own arrangements and they have reached out.
- Consideration of location of future Fire House 3 to be constructed on the East side of the rail road tracks is critical to ensuring community safety. The scenario identified potential limitations in ability to respond appropriately to the East side of the city.
- Meet with the school boards to ensure we coordinate the evacuation of schools and the reception centre policies.
- Coordinate Reception Center Kits with regional partners
- Full day exercise

L.E.M.A.

Leduc Emergency Management Agency

- Formed officially in March of 2018 to provide a more corporate perspective on Emergency Management
- Authority: Alberta Emergency Management Act
- Emergency management agency: 11.2(1) A local authority shall establish and maintain, subject to the regulations, an emergency management agency to act as the agent of the local authority in exercising the local authority's powers and duties under this Act.

EXERCISE 2019

Exercise 2019

- We are working with AHS to develop our exercise for 2019
- This exercise will simulate a tornado that will cause a severe and destructive path from south of Leduc to Edmonton
- Multiple agencies, inclusive of EIA and Leduc County, will be involved
- Meetings have already taken place to discuss logistics
- This will test the region for a response that will touch each municipality

BCP

Business Continuity Planning

- Funding request through 2019 budget to provide funding to create a business continuity plan for our corporation
- Business continuity is the planning and preparation of our corporation to make sure it overcomes serious incidents or disasters and resumes its normal operations within a reasonably short period. This concept includes the following three key elements:
 - Resilience
 - Recovery
 - Contingency
- This is a large project but one that is necessary if we are to respond to, and recover from, a disaster
